

Turate, 10/03/2020

Dear Customer,

herewith we would like to inform you about Italian and specifically FCE Gomma situation concerning the Corona Virus epidemic.

In the last days the Italian government has tightened the prevention measures against the spreading of the infection. All the actions are finalized to limit the contact between people as much as possible. Daily life and habits of all the Italian population are deeply involved in these prescriptions but we firmly agree with the actions taken so far; we believe that these activities will get their benefits.

In spite of this emergency scenario the impact on production activities such as that of FCE Gomma is limited so far. FCE Gomma stands in the province of Como that registers 23 cases of COVID-19 infection out of 600.000 inhabitants.

Prescriptions do not limit workers from reaching their work place and that's why we are currently fully staffed and working at full shifts. We collected feedback that all our partners for raw materials, services and logistics are operating in the same normal way.

In order to preserve the health of the employees and the continuity of operative activities FCE Gomma implemented strict rules within its plants such as:

- Admittance of visitors to our offices and departments is forbidden;
- People who have to load / unload the goods must wear protective mask without going inside the plant;
- Internal meetings are deleted and generally all the gatherings of people are forbidden;
- Employees were provided with masks, disposable gloves and sanitizing liquids;
- Home working for office employees is guaranteed;

In short we cannot see for the time being any risk of business interruption for FCE Gomma; however the situation could rapidly change and in that case we'll promptly inform you.

In case of emergency please consider the following contact as main reference for FCE Gomma:

- Mr. Ferrara Giuseppe (Operations Mgr): +39 338 27 31 485 (mobile phone)

The known contact person in our house remain at your disposal for any further clarification you may require.

Since this epidemic is unfortunately not limited to Italy, we kindly ask you for the same reactivity in informing us about the evolving situation with your company.

Best Regards,

Andrea Restelli
Chief Executive Officer
FCE Gomma Srl
